

Dipl.-Ing. Dr. techn. Ibrahim ÇUNAKU, Prof. -Ass.
Head of eHealth
VAMED Management und Service
Vienna, Austria

Dr. Çunaku studied Computer Technology at the University of Technology in Vienna and got his Doctor degree at the same University for investigating the possibilities for an automatic report generation and automatic analysis of bio-signals in the clinical neurophysiology.

In his earlier professional career Dr. Çunaku worked as a software engineer for the Austrian software company UMA AG. During the last ten years, since he started to work for VAMED, Dr. Çunaku has successfully managed different healthcare-IT projects worldwide. Since January 2011 he leads the business unit eHealth within the VAMED.

Beside his work in the healthcare industry, Dr. Çunaku continues to be also very active in the scientific circles. Since 2008 he holds the post of Professor Assistant at the State University of Prishtina and is responsible for the informatics courses within the Faculty of Technical Applied Sciences. During this time, he has published different papers and scientific articles. Dr. Çunaku is also a member of different professional and scientific organizations.
